FINDING OF NO SIGNIFICANT IMPACT (Amendment)

As required by the guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed State of Utah, Division of Water Quality (DWQ) action below:

Project: Parowan City

Location: 5 South Main Street
Parowan, Utah 84761

Project Number: SRF 7151

Total Costs: \$1,000,000

State/Local Share: \$422,000 State Revolving Fund (SRF) loan; \$578,000 Parowan City.

In 2006, Parowan City completed the construction of a new wastewater treatment lagoon system to provide adequate wastewater treatment for Parowan City and the Town of Brian Head. The proposed project is an amendment to the original project and includes the installation of 24,000 feet of 12-inch and 10-inch wastewater collection piping. This project will eliminate two existing pump stations and the need for a pump station that has been approved but not installed.

Total project costs are estimated to be \$1,000,000 and will be met from a Utah State Revolving Fund loan of \$422,000 and a contribution of \$578,000 from Parowan City. Sewer user fees will be charged at the current rate of \$22 for each equivalent residential user.

The facility plan for this project has been reviewed and found to be in accordance with the requirements of the Division of Water Quality. The review process indicated that no significant environmental impacts would result from the proposed action. Consequently, a preliminary decision has been made not to prepare an environmental impact statement (EIS). This action is taken on the basis of a careful review of the engineering report, environmental information documents and other supporting information which are on file and available for public review at the Utah Division of Water Quality, 288 North 1460 West, Salt Lake City, Utah 84116 or by mail at P.O. Box 144870, Salt Lake City, Utah 84114-4870.

Comments supporting or disagreeing with this decision may be submitted for consideration to the Division of Water Quality. After evaluating the comments received, the agency will make a final decision; however, no administrative action will be taken on the project for at least thirty (30) calendar days while advertising the Finding of No Significant Impact.

UTAH WATER QUALITY BOARD
